Revision History

Revision	Issued Date	Page	Description
1	2001.9.27	All pages	First Release
2	2002.03.28	All pages	EMP-TS10 are added. An overall revision due to the above new product addition.
3	2002.04.08	All pages	EMP-720 and EMP-730 are added. An overall revision due to the above new product addition.
4	2002.05.13	All pages	EMP-30 are added. An overall revision due to the above new product addition.
5	2002.10.18	All pages	EMP-520,EMP-52,EMP-73/53 are added. An overall revision due to the above new product addition.
6	2003.2.21	All pages	EMP-735,EMP-8300 are added. An overall revision due to the above new product addition.
7	2003.3.27	All pages	EMP-7800 are added. An overall revision due to the above new product addition.
8	2003.5.1	All pages	EMP-S1 are added. An overall revision due to the above new product addition.
9	2003.6.25	p.14	Correction of a clerical error.

1.Scope

1.1.Objective

This manual describes the ESC/VP21 communication protocol used in Seiko Epson projectors in order to control the projectors remotely.

2.Applicable Models

EMP-600/800/810/811/820,EMP-TS10,EMP-720/730/520,EMP-30/52 ,EMP-73/53,EMP-735,
EMP-8300,EMP-7800,EMP-S1

Commands with step parameters

(○Supported -Not supported)

Model		810/800 /600	TS10	720/730/ 520	30/52	73/53	735	8300	7800	S1

*It indicates in the text.

3.ESC/VP Command Structure

3.1.Status Display

The prompt after a normal execution is " : ".

The prompt after abnormal execution is "ERR" followed by " : ".

- Examples of normal execution

```
: SOURCE 21 ↵
:
```

```
: BRIGHT INIT ↵
:
```

- An example of abnormal execution

```
: SOURCE VIDEO ↵
ERR
:
```

- An example of status commands

```
: VOL? ↵
VOL=24
:
```

An example using Hyper Terminal

* A colon ":" is a return command and is not required to input.

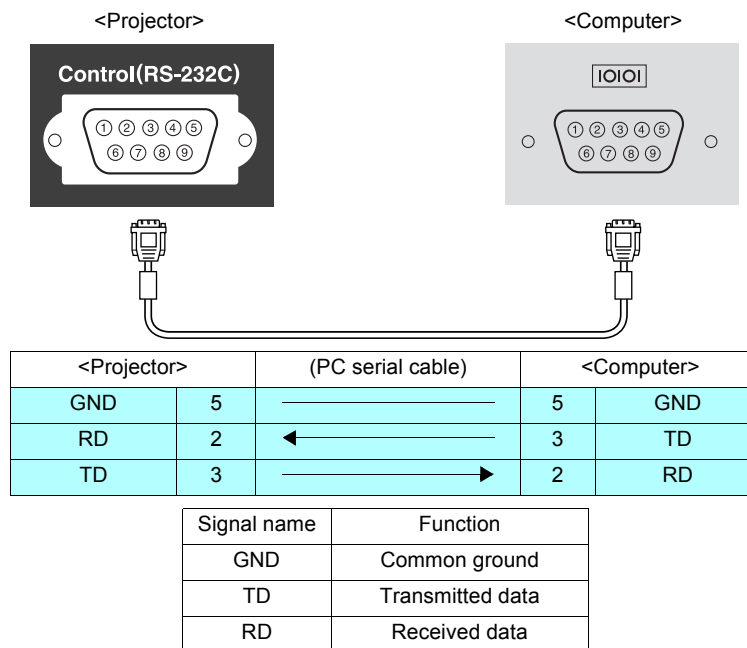

Note : Use capital letters for commands and parameters.

4.Communication specification.

A projector and a computer can be connected using a serial or USB port. The projector can be remotely controlled by sending commands to the projector..

Serial Connection (600/800/810/811/820,TS10,30/52,73/53,8300,7800,S1)

- Select RS-232C at Advanced Setting of the Menu.
- Communication condition
 - Baud rate : 9600 bps
 - Data length : 8 bits
 - Parity : No
 - Stop bit : 1 bit
 - Flow control : No
- Connector : D-sub 9pin
- Projector input : Control(RS-232C)

*Theres no effect if DTR and DSR are not used.

USB Connection (600/800/810/811/820,TS10,720/730/520,73/53,735,8300,7800)

- For 600/800/810/811/820/TS10, select USB at Advanced of the Menu. For 720/730/520 and 73/53, set Link 21L to 1 at Advanced Setting of the Menu. For 8300, select USB at Advanced2 of the Menu.
- Epson USB COM Driver has to be installed in your computer to use USB for communication. A COM port is added to your computer, when the projector and your computer is connected by a USB cable. The added COM is listed at PORT (COM/LPT) in the device manager tab of System in Control Panel as EPSON COM Emulation port (COMn).
- Connector : USB(B type)

5. Notes

The following restrictions apply when the projector is in the standby mode.

- 1) The power on command "PWR ON" is the only command accepted by the projector.
- 2) The "PWR ON" command has to be written in capital letters.
- 3) Other set and get commands are not accepted. There are no error messages from the projector when those commands are sent to the projector.
- 4) The other commands can be used for projector control after the projection is started.

6. Commands with step parameters

Step parameter

- Incremental parameter for integer counter
"INC" used in place of the parameter increments the current value of the parameter by a step.
- Decremental parameter for integer counter
"DEC" used in place of the parameter decrements the current value of the parameter.
- Initialization parameter
"INIT" used in the parameter sets the parameter to the initial value.

*INC cannot increase the step above the maximum step. DEC cannot decrease the step below the minimum step. The "ERR" message followed by ":" is returned when such commands are used.

6.1. Sound control

Item	Function	Set commands	Model	Initial value	Steps
Volume	Set the volume level	VOL xx	600/800/820	15	32
			TS10	15	32

7.Commands without step parameters

7.1.Power control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Power on	Power on *can be used only at standby	PWR ON	-	ON
Power off	Power off	PWR OFF	-	OFF
Power status	Return the power status *can be used only at power on	-	PWR?	1 : Power on

7.2.System control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Reset all	initializes the settings. *The lamp hours, user logo and language are not initialized.	INITALL	-	-
Lamp hour	return the lamp hour	-	LAMP?	0-32767
Brightness Control	Set brightness control	LUMINANCE xx	LUMINANCE ?	00 : High 01 : Low

7.3.Screen control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
A/V Mute	Set A/V Mute	MUTE ON MUTE OFF	MUTE?	ON : A/V Mute ON OFF : A/V Mute OFF
Freeze	Set freeze	FREEZE ON FREEZE OFF	FREEZE?	ON : Freeze ON OFF : Freeze OFF

7.4.Audio input control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Audio Input	Select audio input	AUDIO xx	AUDIO?	01 : Audio1 02 : Audio2 03 : USB

7.5.Display control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Rear Projection	Set rear projection	HREVERSE ON HREVERSE OFF	HREVERSE?	ON : rear ON OFF : rear OFF
Ceiling	Set ceiling projection	VREVERSE ON VREVERSE OFF	VREVERSE?	ON : ceiling ON OFF : ceiling OFF

It returns to Commands without step parameters

7.6.Color control

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Color Mode EMP-810/800/600 EMP-720/730/520 EMP-30/52 EMP-73/53 EMP-735	Set color Mode	CMODE xx	CMODE?	01 : sRGB 02 : Normal 03 : Meeting 04 : Presentation 05 : Theater 06 : Amusement
Color Mode EMP-TS10	Set color Mode	CMODE xx	CMODE?	01 : sRGB 02 : PCI 05 : Theater 07 : Natural 08 : Dynamic
Color Mode EMP-8300 EMP-7800	Set color Mode	CMODE xx	CMODE?	01 : sRGB 04 : Presentation 05 : Theater 08 : Dynamic
Color Mode EMP-S1	Set color Mode	CMODE xx	CMODE?	01 : sRGB 04 : Presentation 05 : Theater 06 : Living Room 08 : Dynamic
Color Control Setting	Set color control setting	CSEL xx	CSEL?	01 : Set color temperature setting 02 : Set RGB setting
Noise Reduction	Set noise Reduction	NR ON NR OFF	NR?	ON : Noise Reduction ON OFF : Noise Reduction OFF

7.7.Special function

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Start PinP	start P in P (Ex) PINP 42 1 2 1 □ □ □ □	PINP [source posX posY size]	-	source : Video source of sub-screen (Video or S-video) P.14[Input Source] source code posX : X coordinate (0-15) of sub-screen from left Horizontal is divided into 16 (default value is used when omitted) posY : Y coordinate (0-15) of sub-screen from top Vertical is divided into 16 (default value is used when omitted) size : Size of sub-screen 0-4 incremental zoom (default value is used when 0 or omitted)
End PinP	Set End PinP	PINP OFF	-	OFF : stop P in P OFF
A/V Mute Screen	Set A/V Mute Screen	MSEL xx	MSEL?	00 : Black screen 01 : Blue screen 02 : User logo
Auto Keystone	Set auto keystone	AUTOKEY- STONE xx	-	ON : Auto Keystone ON OFF : Auto Keystone OFF

It returns to Ccmmnds without step parameters

7.8. Input Source

Item	Function	Set commands	Get commands	Parameter for set (Return code for get)
Input Source EMP-810/800/600 EMP-TS10	Select the input source	SOURCE xx	SOURCE?	11 : PC1(analog-RGB) 12 : PC1(digital-RGB) 13 : PC1(RGB-Video) 21 : PC2(analog-RGB) 22 : PC2(RGB-Video RGsB) 23 : Component Video(YCbCr) 24 : Component Video(YPbPr) 41 : Video (RCA) 42 : Video (S)
Input Source EMP-720/730/520 EMP-30/52 EMP-73/53 EMP-S1	Select the input source	SOURCE xx	SOURCE?	11 : RGB 14 : Input 1(YPbPr) 15 : Input 1(YCbCr) 40 : VVideo 41 : Video(RCA) 42 : Video(S)
Input Source EMP-735	Select the input source	SOURCE xx	SOURCE?	40 : VVideo 41 : Video(RCA) 42 : Video(S) 50 : EasyMP(IM-X)
Input Source EMP-8300	Select the input source	SOURCE xx	SOURCE?	10 : INPUT1(D-Sub) 11 : INPUT1(analog-RGB) 13 : INPUT1(RGB-Video) 20 : INPUT2(D-Sub) 21 : INPUT2(analog-RGB) 23 : INPUT2(RGB-Video) 30 : INPUT3(DVI-D) 31 : INPUT3(D-RGB) 40 : Video 41 : Video(RCA) 42 : Video(S) 50 : EasyMP(IM-X) B0 : INPUT4(BNC) B2 : INPUT4(analog-RGB) B3 : INPUT4(RGB-Video) B3 : INPUT4(YCbCr) B4 : INPUT4(YPbPr)
Input Source EMP-7800	Select the input source	SOURCE xx	SOURCE?	10 : INPUT1(D-Sub) 11 : INPUT1(analog-RGB) 13 : INPUT1(RGB-Video) 30 : INPUT3(DVI-D) 31 : INPUT3(D-RGB) 40 : Video 41 : Video(RCA) 42 : Video(S) 50 : EasyMP(IM-X) B0 : INPUT4(BNC) B2 : INPUT4(analog-RGB) B3 : INPUT4(RGB-Video) B3 : INPUT4(YCbCr) B4 : INPUT4(YPbPr)

It returns to Ccmmnds without step parameters

7.9.Key operation

Item	Function	Set commands	Get commands	Parameter for set
Key operation	Execute the key (bottom) function of the projector or the remote control.	KEY xx	-	*Refer to following.

It returns to Ccmmnds without step parameters

8. Appendix

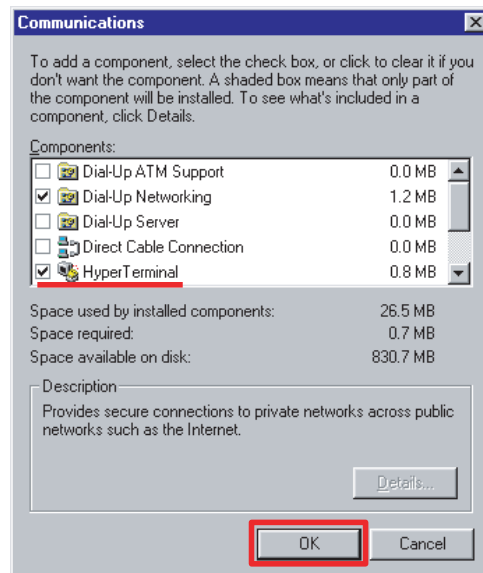

It is convenient to use Hyper Terminal included in Microsoft Windows to confirm the operation of ESC/VP21 commands using a PC. If Hyper Terminal is not included in "PROGRAM", install it as follows.

8.1. Hyper terminal installation

- Open the "Add/Remove Programs" icon in the Control Panel.
- Select "Communications" of "Windows Setup" and click the "Details".

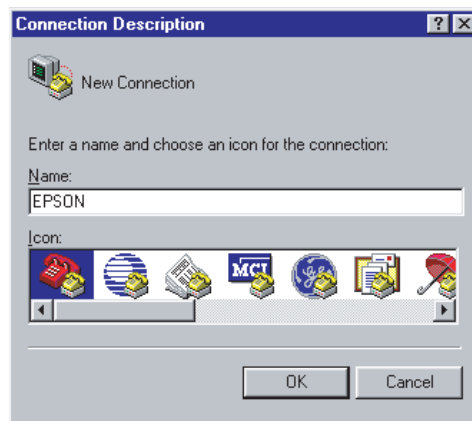

- Mark "Hyper Terminal" and click the "OK" bottom, which completes the installation.

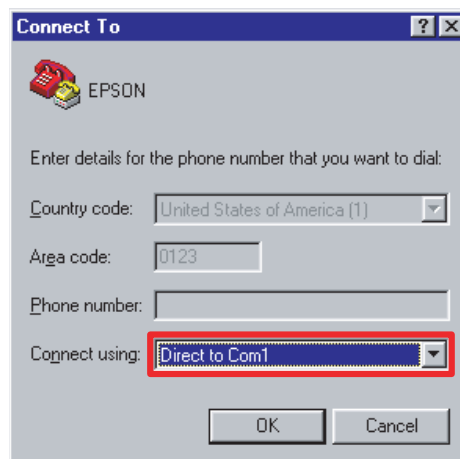

8.2.Hyper Terminal configuration

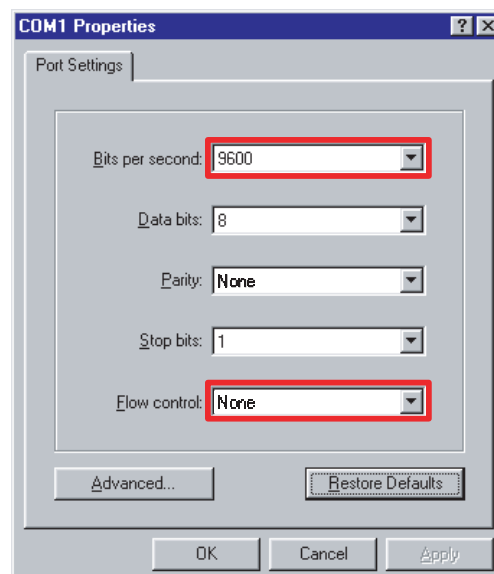

- Open Hyper terminal, input the name, select an icon and click "OK".

- Serial connection
Select the communication port (Example : Direct to COM1) in "Connect using".
- USB connection
Select Epson COM emulation port (COMn) in "Connect using".
When the COM port is changed, restart Hyper terminal.

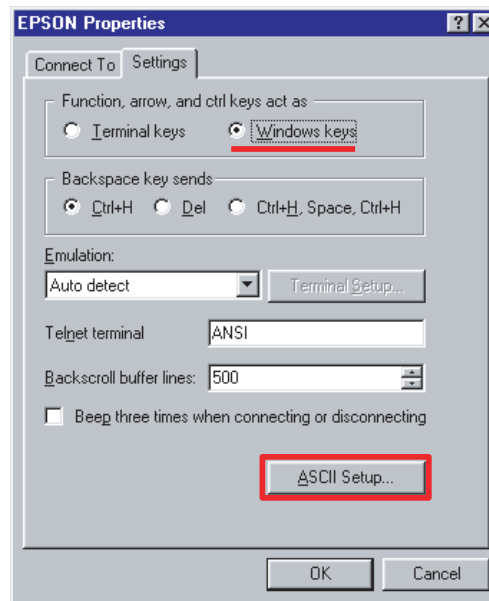

- Select 9600 bps, 8 data bits, no parity, 1 stop bit and None.

- Open the "property" of Hyper Terminal.

- Mark the "Windows keys" and click "ASCII Setup" bottom.

- Mark "Send line ends with line feeds", "Echo typed characters locally" and "Append line feeds to incoming line ends". Click "OK", which completes the configuration.
